Projects

Designed & Developed

June 2025 – July 2025

– DAT Architecture

<https://www.datconsultancy.com/>

Designed and developed a responsive website for an engineering consultancy

Created modular sections and pages for projects, news, and expertise.

Managed the full development lifecycle (design, implementation, deployment) using Netlify hosting and optimized performance for fast load times

Designed & Developed

July 2025 – August 2025

– Luxedesign Construction

<https://luxedesign.ae/>

Designed and built a responsive website for an interior-fitout & villa construction firm.

Structured modular pages (Home, Projects, News & Blogs, About, Contact) for easy content updates

Oversaw full development, deployment, and performance optimization on Netlify

Designed

Feb 2025 – June 2025

– Replenish (Tribe) - EMR Sytem

Designed the complete EMR & GFE system UI in Figma for clinics to manage staff and client appointments

Created user flows and wireframes for multi-role portals (staff, client, and admin) ensuring seamless booking and management

Designed additional modules including inventory management and staff scheduling to optimize clinic operations

Designed

June 2025 – June 2025

– Terarium

Designed a modern, responsive landing page for Terarium, a robo-advisor product brand

Focused on clean UI, clear information hierarchy, and strong visual storytelling to build trust

Created high-fidelity Figma prototypes showcasing product features and user benefits

Designed

July 2025 – August 2025

– Capture Caribbean

<https://capturecaribbean.figma.site/>

Designed a complete multi-page section for Saint Lucia on Capture Caribbean, including homepage, sweepstakes, rules, details, and entry forms

Created consistent branding, visual style, and navigation flow across all pages to ensure intuitive user experience

Developed high-fidelity Figma mockups and prototypes for each page, ensuring responsiveness and visual quality across devices

Achievement

“REIMAGINE” Front-end Competition

- Successfully cleared 2 Rounds of the Reimagine Frontend Competition, which involved recreating a brand website with modern design and animations.

In the first round of the competition, our website ranked in the top 15 out of 700 entries.
